

Course Outline

Microsoft Office Word Advanced - 1 Day

Microsoft Word Advanced is designed for Microsoft Word users who are keen to extend their understanding and knowledge of the software beyond basic document creation so that they can create and work with features such as SmartArt, indexes, track changes, fields and much more.

At the completion of this course you should be able to:

- create and work with SmartArt
- create and work with a table of contents
- insert and edit footnotes and endnotes
- create and work with an index in a document
- work with document properties
- understand, insert and work with fields in a document
- work with custom dictionaries
- use a range of document proofing features
- understand and use the tracking feature in Word
- compare multiple versions of the same document
- create and remove protection for your document
- use the features of Word to work collaboratively with others

Microsoft Word Advanced assumes an intermediate understanding of Microsoft Word and the creation of documents. It would be beneficial to have a general understanding of personal computers and the Windows operating system environment.

Contents
